

Great news for all GC sheet buyers! Tata Shaktee brings you the widest, most economical GC sheets in the Indian market. With 15 corrugations and a width of 1220mm, Tata Shaktee GC Sheets give you the added benefits of superior quality and super savings while building your house. The advantages of using the superior 1220mm (15 corrugations) Tata Shaktee GC Sheets over standard 840mm (11 corrugations) GC sheets are listed below :

Standard GC Sheet with 11 corrugations

Tata Shaktee GC Sheet with 15 corrugations

Lesser number of sheets required:
To cover an area of 3.05 meter x 30.5 meter, only 28 sheets of 1220mm wide Tata Shaktee GC Sheets are required. To cover the same area, 42 sheets of 840mm wide GC sheets are required.

Fewer joints required:
Wider sheets allow you to have fewer overlaps which not only reduces wastage, but also the number of joints.

Fewer seepage points:
Since fewer holes need to be drilled to fix 1220mm wide Tata Shaktee GC Sheets, there are a lower number of seepage points on the roof.

Fewer accessories required:
Fewer holes need to be drilled to fix 1220mm wide Tata Shaktee GC Sheets, thus reducing the number of screws, nuts and bolts required.

Greater savings:
Use of 1220mm wide Tata Shaktee GC Sheets reduces the number of sheets and accessories required and therefore reduces labour cost. So you save more than ever before.

Any way you look at it,
Tata Shaktee *Wider* GC Sheets
are your best option.
