

Benefits of 910mm Tata Shaktee GC Sheets

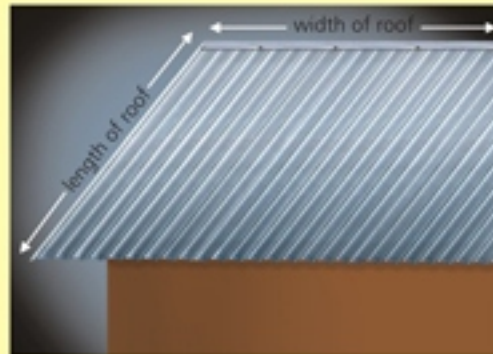

LESSER NUMBER OF SHEETS REQUIRED:

Since 910mm Tata Shaktee GC Sheets are 13% wider than standard 800mm GC Sheets, fewer number of 910mm GC Sheets would be required to cover the same roof area. This results in direct savings. (Refer table below)

Width of Roof * (ft)	No. of standard size (800mm) GC Sheets required	No. of Tata Shaktee 910mm sheets required	Savings
30	14	12	5.4%
50	23	20	4%
80	36	31	5%

* Length of the roof assumed to be 16 ft for calculations

FEWER JOINTS REQUIRED:

910mm Tata Shaktee GC Sheets allow you to have fewer overlaps, which not only reduces wastage, but also the number of joints.

FEWER SEEPAGE POINTS:

Since fewer holes need to be drilled to fix 910mm Tata Shaktee GC Sheets, there are lower number of seepage points on the roof. This increases sheet life.

GREATER SAVINGS:

Use of 910mm Tata Shaktee GC Sheet reduces the number of sheets and accessories required and therefore reduces labour cost. Hence you save more than ever before.

Great news for all GC Sheet buyers! Tata Shaktee presents 910mm GC Sheets in the Indian market. With 13 corrugations and a width of 910mm, Tata Shaktee GC Sheets give you the added benefit of superior quality at super savings while building your house.
